

Experience: **Hunt and Gather**, Boston, MA - March 2007 to present
ART DIRECTOR
Conceptualizing interactive experiences in team environment. Presenting concepts to team and clients. Mentoring and managing junior designers.

Interactive Factory/RDW GROUP, Boston, MA - October 2001 to March 2007
SENIOR DESIGNER
Responsible for all creative needs including conceptual phases, art direction and overall look & feel. Created websites and flash interactives for clients in Business to Consumer, Entertainment, Higher Ed, Medical, Non-Profit and Publishing industries. Developed new standards and guidelines within the interactive department to ensure production of best-practice CSS and XHTML code. Created educational internal web-site to use as a “best-practice” reference. Provided mentorship for interns, teaching them how to use today’s creative tools and how to create clean, standards compliant CSS/XHTML code.

Cambridge Information Systems, Boston, MA - January 2000 to May 2001
ART DIRECTOR
Responsible for all creative aspects of projects. Responsible for all branding within CIS for screen and print. Educated associates in Photoshop and introduction to CSS. Created and documented a “Project Process” for the new interactive department that detailed the steps and timelines for typical project lifespan.

Miller Systems, Boston, MA - February 1999 to January 2000
SENIOR DESIGNER
Core responsibilities included: meeting with clients, designing the overall look and feel of clients’ web sites and producing graphics and HTML templates for the production team. In charge of Art Direction and Lead Creative for Conference and Expo web sites. Sites included design of conference Registration systems. Responsible for Miller Systems Corporate web site and print collateral.

Howie Green Design, Boston, MA - April 1996 to February 1999
NEW MEDIA DESIGNER
Worked with creative director to design web sites, flash interactives and print pieces. Created interactive flash games and demos for clientele in the entertainment and dining industries. Learned to hand code web pages in HTML.
